

To Whom It May Concern,

On behalf of iSE (Initiative for Social Entrepreneurs) C.I.C, I am writing this letter to express support for the work Blue River is doing with disadvantaged young people including care leavers and ex-offenders in the West Midlands.

iSE are a well established Social Enterprise Development Organisation based in Birmingham offering business support and training across the wider West Midlands. Over the past six months, we have been supporting Blue River in the development of their Social Enterprise.

We have been impressed with their commitment and passion for their area of work and the clear structure and thoroughness of approach in their business development and planning. They are also keen to embrace new approaches to enhance their business sustainability.

We are more than happy to continue offering appropriate business support to aid their progress, and wish them every success in their future work to provide quality services to their target beneficiaries.

Yours sincerely,

*Andrew J Beaton*
