

# Blue River - Putting students first

“ This has been an amazing, outstanding and interesting, beautiful year.  
-Warsame ”

**Are there any teachers who have particularly supported or inspired you this year?**

I have been inspired by so many teachers through the year such as Sir Ethan (Focus Tutor) who constantly supported me and helped me. Sir Emdad (Teaching Mentor) one of my favourite teachers – his teaching lessons are outstanding and amazing, he is a dedicated teacher. Finally Karen (Lead Tutor) the best teacher I have ever met – she has done so many things and she put me in higher English, for which I'm really grateful.

**If you could say 3 things about the benefits of being at Blue River what would they be?**

That would be the excellent choice of GCSE's that can lead you to A-levels; also the supporting teachers – all of them are helpful and intelligent. School activities are fun and you get to take part in sport and learn – the staff of Blue River is so good they are ready to help you.

**Have your future plans changed since joining Blue River?**

Yes, next year I am doing A-levels because my predicted grades are much higher than before – AS-Psychology, AS-Biology, AS-Chemistry, AS-Dutch and AS-Business Studies. With my higher grades, I want to study Psychology

and Biology in University.

**How has Blue River helped you to achieve your future plans?**

Blue River has changed my life for the better – when I came to the UK from Holland no school wanted me because they couldn't teach me English in one year. I applied for Blue River and they managed to change me – in one year I was able to do all my favourite GCSE's and higher, also I am planning to do six A-levels next year which is amazing.

**How have you changed as a person since joining Blue River? What areas have you improved in?**

Everything has improved especially my manners – I have improved my whole life style and now I know how far I can go in life. I have also improved my teamwork skills, education and I enjoy being in Blue River every day – I have also 100% attendance.

**Describe your experience at the school.**

I made many friends and forged strong bonds with every teacher. This has been an amazing, outstanding and interesting beautiful year. It was difficult and sometimes things happened over the year, but with the staff I was able to achieve and came very far. Finally I will miss Blue River – all of the experience and education that I got is due to the efforts of the staff at Blue River. I will never forget Blue River and I wish Blue River an amazing future.
